

MC-3s

300ML CAPACITY
MILKING CLAW

WEIGHT 430G
FOR HERRINGBONE AND
ROTARY SHEDS

LOOKING FOR A LIGHTWEIGHT MILKING CLAW?

The MilktechNZ® MC-3s 300ml high impact polymer milking claw has been designed to significantly reduce the weight of the cluster while retaining strength, ergonomics, and vacuum stability for gentle milking. The MilktechNZ® MC-3s milking claw with the lightweight cup shells can reduce the overall weight of the cluster.

- Lightweight, ergonomic design with a 360° view of milk flow.
- Made from industry leading plastic to ensure durability in the harsh dairy environment.
- Reversible top to place air admission front or back to suit operator cleaning.
- 2+2 or 4+0 pulsation option available.
- 100% designed and manufactured in New Zealand.

With lightweight plastic cup shells

CLUSTER WEIGHT 1630g

With stainless steel cup shells

CLUSTER WEIGHT 2030g
